

Author's Name: _____

Note-taker: _____

Science Leadership Cases Testing a Case Seed Idea

Ask the “author” the following to get an overview of the case:

In a couple of sentences, what is the dilemma/challenge/issue being presented?

List the events that occurred in relationship to this case.

What are different perspectives on this issue?

What interests/questions/concerns/feelings, etc. does the author have about working with this case?

Take a moment after the “author” talks to jot some notes on the following:

What is the larger issue at stake? How might others relate to this issue?

What else would you like to know about this case?
