This morning you had a chance to reflect on the current status of your Professional Learning Community (PLC). This afternoon you carefully evaluated samples of student work and considered how one might respond instructionally to this work. In answering the questions below, please consider how your PLC assesses and responds to student work. Also, please consider how your PLC might implement and monitor plans for instructional improvement in your building on a continuous basis.

In what ways does your PLC **develop** plans for instructional improvement?

How does your PLC **implement** and **monitor** those plans?

How might your PLC improve the process of **developing**, **implementing**, and **monitoring** plans for instructional improvement?
